

## 17-Aug-09 Presenter Announcements

### **NCEN**

This month's meeting featured presentations on Advanced Vehicle Design

### **Round 1 Presenters**

Name: Guy Babbit  
Contact: guy.babbitt@czero-solutions.com (719) 331-9662  
Company: Czero www.czero-solutions.com  
Product: *Czero is developing a hydraulic hybrid retrofit kit for heavy duty trucks. The system is specifically designed for retrofitting class 7 and 8 refuse and yard hostler trucks. Czero is working in conjunction with Colorado State University Engines and Energy Conversion Laboratory and local and national businesses on the project. One prototype system is operational and the next generation system is expected to be operational the first quarter of 2010.*

Need: Collaborative, sweat equity partners; sweat equity strategies

Name: Bonnie Trowbridge  
Contact: bonnie@lightninghybrids.com (303) 519-4144 x108  
Company: Lightning Hybrids www.lightninghybrids.com  
Product: *Hydraulic Hybrid Systems, LLC (HHS) is a subsidiary of Loveland, Colorado-based Lightning Hybrids Inc., founded in 2008. The Company is a Green Technology Powertrain Research, Development, and Manufacturing company. HHS has created a hydraulic hybrid system for the fleet vehicle market. The HHS solution involves inserting a high-efficiency, light-weight hydraulic propulsion system within the driveline of a vehicle.*

Need: Collaborators; fleet partners
